

DOTHAN GUARDS COTTON GONE; TO COMPETE FOR PRIZE

Silver Loving Cup Will Be Awarded Best Drilled Company Wednesday, October 27, at Dothan Fair.

Dothan Guards, known officially as Company F, First Regiment, Alabama National Guard, will compete for a silver loving cup to be awarded the best drilled company on Wednesday, October 27, Governor's Day, at the second annual exhibition of the Southeast Alabama Fair Association, in Dothan.

Military organizations from towns in Southeast Alabama and other parts of the State are expected to be on hand that day to compete for the prizes. It is not known yet just what out of town companies will enter.

The Awards.

The fair association will award to the best drilled company a handsome silver loving cup, while minor prizes will be awarded to the best drilled squad and the best drilled militiamen. The Dothan Guards are going to make a strong bid for the first prize.

Captain C. J. Morris has already notified the members of his company that they will drill two nights each week—Tuesday and Saturday nights—and all are required to be on hand at the Armory.

It is expected that keen rivalry will exist between the different competing military organizations as there will probably be some on hand that will make the contest lively for the Dothan Guards, and maybe capture first prize. They will have to go some thought to do that if past records of the local company stand for anything.

Good Shot.

The Dothan Guards rank as one of the best shooting companies in the State militia, all the men being right handy with their rifles, but the local company is a trifle behind one other company in drilling. The prize offered at the fair will give the militiamen extra incentive to improve in their drilling.

HAS UNIQUE SIGN.

The Boston Shoe Hospital, a new industry which has opened doors on East Main street, has an attractive sign in the form of a red cross. This sign has attracted a great deal of comment. The company, which will engage in the repairing of shoes and the "healing of sick soles," is under the management of Herbert Moog, recently of Pensacola, Fla.

BOYS ARE RELEASED

Two young men who were arrested and locked up by the police yesterday, charged with stealing a garden hose, were released soon afterwards on account of lack of evidence. One of the accused told The Eagle that he had borrowed the hose, but was just slow in returning it, and that it was not stolen.

TWO IN JAIL

Lon Whaley and Jack Daniels, colored, are in the county jail charged with stealing some 400 pounds of cotton from Fletcher Tomlin and a Mr. Perry, both farmers living near Wicksburg. Sheriff John A. May and Deputy Ross Hornsby, were in the Wicksburg community yesterday and arrested the two negroes and brought them to town. It is alleged that they went to the cotton houses used by the two white farmers, and carried away a quantity of cotton.

SMALL FIRE TODAY

A small negro house on South St. Andrews street, outside the city limits, was destroyed by fire this morning.

Miss May Newberry Is Slightly Better

Miss Mae Newberry, who was struck by lightning Monday afternoon and seriously injured, is reported slightly better this afternoon.

Miss Newberry spoke this morning for the first time since the accident. When asked about something to drink, she said she wanted milk and ice water. She has not talked any since.

A. R. Clark, Dothan route 6 farmer, was in town today on business.

J. J. Whidden, prosperous farmer of route 4, was here today on business.

THE WELL-DRESSED FEELING.

You have that good feeling of being better dressed when your clothes fit you well and have that distinctive individuality that only clothes can have that are made to fit YOU.

A wide range of choice in prices from \$15.00 to \$50.00 for lads from 16 to 60.

CLAIMS IDLERS CURSED NEAR HIS HOUSE

Business Man Asks Eagle to Convey Warning to Parties Not to Let it Occur Again.

"Last night," said a well known business man today, "some young men—I do not know their names—gathered in front of my home on West Main street and indulged in a great deal of profanity. Members of our family could hear this bad language, and I told the unidentified parties to move on. Two of the young men wore Palm Beach suits while the others wore darker clothing."

"Continuing the spokesman said: 'I wish you would call attention to this in The Eagle, and warn the parties, whoever they are, not to stop in front of my home any more and use profane language where the lady members of the family may hear them.'"

KINSEY ITEMS.

It has been so long since the happenings from our little place have been given that some people may think we are dead, but we are very much alive.

The principal things you hear now is cotton picking and the boll weevil is coming. Many of our farmers are now beginning to make plans to plant something else to take the place of cotton. Some will plant wheat, some sweet potatoes, some peanuts, some oats for sale, and some burr clover, getting ready to seed larger areas.

Mrs. D. H. Burdeshaw has been suffering this week with rheumatism, but we are glad to see her out again.

Dr. Mitchell and wife, of St. Andrews, Fla. are spending some time with the family of Rev. R. W. Burdeshaw.

E. M. Jarvis who is now a resident of Dothan was up last Sunday visiting relatives.

John T. Newton has sold his house and lot here to Miss Eldora Kinsey. We are glad to have such people come in. She with her sister and nephew, will be students in the Mallalieu Seminary this year.

Rev. R. W. Burdeshaw attended court at Abbeville Monday.

Regular preaching services were held at the Baptist church last Sunday by the pastor.

Monday was opening day for Mallalieu Seminary. The attendance was real encouraging. The best in years for the first day. The day was given to classifying the students and assigning work for the next day. The formal opening was held at the M. E. Church Monday evening at 7 o'clock. After the opening songs and prayers, the following program was rendered:

The Advantages of being a pupil in Mallalieu Seminary, Miss Eldora Kinsey.

The value of home economics, Miss Gladys Waddell.

The Parents Duty to the School, C. H. Burdeshaw.

Education, P. E. Broyles.

Prohibition Is Big Winner In South Carolina

Columbia, S. C., Sept. 14.—South Carolina today adopted state-wide prohibition to take effect January 1, next, in place of the present local option system, according to unofficial returns here late tonight from throughout the State. The vote, with almost complete returns from a majority of the forty-four counties, stood 33,104 for prohibition to 14,157 against. It was declared by those who have followed the referendum election that the total vote would not exceed 60,000.

Governor Manning, who was elected on a local option platform, whereby liquor dispensaries, issued a statement tonight after reading the returns, in which he said since "the people have spoken" he would do his utmost to enforce the law.

Of the thirty counties which were dry under the local option system, all were declared to have voted for prohibition. Only one of the dispensary operating counties was known tonight to have cast the majority of its votes for prohibition.

Poole Going Good In The Southern

Ralph Poole, formerly of the pitching staff of the Dothan team in the Georgia State league pitched splendid ball for Mobile at Chattanooga yesterday, allowing only four hits. Cunningham, the opposing pitcher, won his game although Mobile touched him for five safeties.

The final score was 1 to 0 in favor of Chattanooga, and from the score it looks as if Poole and his mates just played in hard luck. The only scoring done was in the second when Harris, of Chattanooga, got an infield hit, took second on Kitchen's sacrifice, stole third and came home on Merritt's squeeze play hit. After this Mobile tried hard, but could not tie the score.

Boston Traveler In Hands New Owners

Boston, Sept. 14.—The property of the Boston Herald, incorporated, publishers of the Boston Herald and the Boston Traveler, was sold at auction for \$1,800,000 today to F. DeG. Sullivan, of New York, representing Morton F. Plant and other holders of securities.

The Traveler is the paper that suggested a boycott on Georgia.

Claim in the Arabic Case

Buffalo, N. Y., Sept. 14.—Former claim against Germany for indemnity has been filed with Secretary Lansing by Philip W. Collier and his wife, Maybelle, who lost all their possessions in the sinking of the Arabic, upon which they were passengers.

MEN TO FINANCE FOR BOARD NAMED

Probate Judge Wood of Henry, and Contractor Brown in Dothan Today.

Roads, long roads and short roads, but in every instance better roads, improved roads, level and hard roads, is a theme that is giving the new County Board of Revenue much worry as was evinced at a meeting of that body in the court house today.

Committee Named.

John Sanders, Judge A. C. Crawford and J. H. Blackmon, all of Dothan, were elected as a finance and purchasing committee with power to act in ordinary matters whenever it is impracticable to get the different commissioners together to pass on some little question. J. R. Faircloth put the motion for the election of this committee. Some of the board did not exactly understand the matter, this necessitating considerable talk before the question was finally settled.

Roads Suggested.

Several routes for improved highways were suggested and discussed by the members of the board. One suggested road would connect Dothan, Webb and Columbia, another Ashford and Gordon, while still another would be from Dothan to Cottonwood to Granger, thence to the Alabama-Florida State line.

Visitors Here.

Probate Judge Sam Wood of Abbeville was here this afternoon having an informal conference with Probate Judge A. C. Crawford at the latter's office. Judge Wood was accompanied by J. Brown, a contractor, who is engaged in constructing good roads in Henry county. Several of the members of the County Board of Revenue chatted with the Abbeville parties.

As it is understood that Houston county contemplates some good road building on a large scale it is likely that Contractor Brown was here in the interest of his firm.

R. D. Pemberton and others went out on the first possum hunt last night. They had splendid success, catching one possum.

H. S. Camp, big farmer and merchant of Keyton, was here today on business.

Wiley Warrick of route 7, was here today on business.

Jeff Loftin and wife of Barretts, were shopping in Dothan today.

D. T. Powell and Green Pitts of route 3, were here today trading.

J. T. Tidwell, good citizen of route 7, was here today on business.

L. L. North of Ashford, was here today on business.

DRUG 'RING' IS BROKEN

New Orleans, Sept. 14.—Four men and one woman in federal court here today received penitentiary or jail sentences for violation of the Harrison anti-narcotic law. These were the first sentences here under the act.

Guy Chaffin, who federal agents charged was one of the principal factors in an alleged ring for drug traffickers operating between New York and New Orleans, and David Turner were sentenced to a year and a day each in the Atlanta penitentiary. The other men and a woman were given jail sentences.

To Demonstrate Tank For Auto Supply Co.

J. C. Sancken of Bowser and Company, will be in Dothan all public the new Bowser gasoline tank recently installed for the Dothan Auto Company, North Foster street.

It is announced that Mr. Sancken will take great pleasure in pointing out the merits and demonstrating the operation and advantages of the apparatus.

Workmen placed the tank on its foundation in front of the Auto Supply Company's store today. A crowd of interested spectators watched the men at work.

SPANISH SHIP SEIZED

Paris, Sept. 14.—A Havas dispatch from Madrid says the Spanish steamer Valvanera, bound from Barcelona to South America, has been seized and conducted to Gibraltar on the ground that her charterer is a German. The company owning the vessel protested, declaring the German is not the charterer but simply the shipping agent.

J. A. Garrard of Garrards X Roads, was here today on business.

J. D. Hollin, prosperous farmer of route 7, was trading here today.

J. G. Mathis, the home made bacon man of Ashford, was here today selling his weekly load of meat.

U. C. Deal of route 6, was here today on business.

AUTOS HELP HORSESHOERS

Cleveland, Ohio, Sept. 14.—Hard automobile roads are helping the horse shoers. Delegates to the convention of the Master Horseshoers' National Protective association said today a horse's shoes wear only one-fourth as long as formerly.

SHIP WITH WHEAT SINKS

Duluth, Minn., Sept. 14.—The wheat laden steamer Onaka, owner in Cleveland sprung a leak and sank today fourteen miles out of Duluth, about within a moment's warning. The

COTTON BEING GINNED NOW HURRIEDLY

321 More Bales Ginned Up to September 1 Than Last Year—Many Farmers Selling.

In view of Houston county's greatly reduced cotton crop this year the report of Special Agent John M. Dykes which shows that there were 321 more bales ginned up to September 1 this year than last year, indicates that the cotton crop is being hastily gotten out of the way. The fields of Houston county may be clear of cotton earlier this season than last.

There were 4,416 bales of cotton ginned in Houston county from the crop of 1915 prior to September 1, 1915, as compared with 4,095 bales ginned prior to September 1, 1914, this making a gain of 321 bales.

Selling Cotton.

Not only is the crop being gathered and ginned hurriedly, as shown by Mr. Dykes' report, but a goodly portion of the staple is being sold to the cotton buyers in Dothan and in other towns in the county. With cotton bringing ten cents, the farmers are greatly tempted to sell, although some are holding their cotton for higher prices. Some conservative estimators believe that cotton will soar as high as twelve cents within the next few months.

Short Crop.

Houston county this year has no doubt the shortest cotton crop in the history of this section, there being a number of contributing causes. The low price paid for cotton last season, with a large crop on hand and the war in full swing, was a great blow to farmers and left many of them in debt. They had no money to buy fertilizer with, and their credit was strained. Consequently, fertilization was greatly reduced this year, thereby reducing the production of cotton. The acreage was also reduced, as it is, the cotton crop of this county will be at least 40 or 50 per cent short. The same situation obtains throughout the cotton raising South, in a more or less degree.

CURTWRIGHT SMOOKED

J. M. Curtwright, formerly of the city's light plant but who is now connected with a local foundry and machine shop, was knocked unconscious by lightning the other afternoon during the electrical storm. A physician worked over him about 15 minutes before he recovered.

Found—A bunch of several keys, on triangle ring, left on the counter of Bligh's. A Whidden's store several days ago. Owner call at his office, pay for this ad and get them.

Edgar Hall of Taylor, route 1, was here today on business.

J. W. Blalock, and wife, of route 7, were here today on business.

WE LIVE TOO STRENUOUSLY

Life insurance companies in the United States and Canada are concerned over a rapid increase in the death rate of men and women past sixty years, especially from degenerative diseases of the heart, says the Brunswick, (Ga.) News. Since 1880 there has been a notable drop in the mortality up to thirty years, indicating a healthier youth, but the wear and tear of life between thirty and sixty is leaving to those who reach sixty a heavily depreciated vitality, and often a diseased condition of vital organs too far gone for remedy. Old age and decay of the body, especially weakening of the heart and thickening of the arteries, come prematurely through unnecessary strains upon and neglect of the body when business and social cares monopolize attention.

That the acceleration of break up in men and women over sixty is, purely and simply, the consequence of the "American fashion" of living during the years of prime appears from the fact that there has been no corresponding increase in the British death rate of persons over sixty, cited by the Toronto Mail and Express. The British rate since 1880 shows lower mortality in all ages. The statistics, as quoted by Dr. Fisk of the Life Extension Institute, New York, in an address to the Toronto Insurance Institute, are worth study. In 1880 the death rate in Britain from diseases growing out of ordinary wear and tear upon the system—excluding, of course, all communicable diseases—was 26.6 per 10,000 of population. In 1910 it was 27.3. In 1880 the United States rate was 21.1, considerably lower than the British, but in 1910 it was 38.7, or much higher. Why should there be this remarkable difference? Every North American getting up in years is vitally interested in finding why his life tends to be shortened beyond that of his brother Englishman or Scotchman. Obviously one reason is that the Briton takes his business more leisurely, more regularly. He is never so absorbed in business that he forgets his outdoor recreations. His personal participation in sport is unremitting. Gladstone in his old age cutting trees in Hawarden is a typical instance. The Briton gives his body exercise and rest, and does not recklessly sacrifice it on the altar of business. This is a more rational, a better rounded life, for, after all, the main purpose of life is to live, and what avails business conquests at the sacrifice of years of health. In the great outdoors of this continent may be found every facility and opportunity for evading hardening of the arteries, heart weakening, Bright's disease and other symptoms of the break-up of the wonderful organism of the body.

The Anniston Star says, "Rev. John A. May is conducting a revival at the Oxanna, M. E. church." Down here he's conducting a crusade against a revival of blind tigers.

By Dr. Frank Crane. No is next to the shortest word in the English language. It is the concentrated Declaration of Independence of the human soul.

It is the central citadel of character, and can remain impregnable forever.

It is the only path to reform.

It is the steam gauge of

It is evident that the time through

It is the steam gauge of

It is the steam gauge of

It is the steam gauge of

It is the steam gauge of

It is the steam gauge of

It is the steam gauge of

It is the steam gauge of

It is the steam gauge of

strength, the barometer of temperament, the electric indicator of moral force.

It is the automatic safety first device.

It has saved more women than all the knights of chivalry.

It has kept millions of young men from going over the Niagara Falls of drunkenness, profligacy, and passion.

It is the updrawn portentous and barred gate of the castle of self-respect.

It is the dragon that guards beauty's tower.

It is the high fence that preserves the innocence of the innocent.

It is the thick wall of the home, keeping the father from folly, the mother from indifference, the boys from ruin and the girls from shame.

It is the one work that you can always say when you can't think of anything else.

It is the one answer that needs no explanation.

The mule is the surest footed and most dependable of all domestic animals. No is the mule-power of the soul.

Say it and mean it.

Say it and look your man in the eye.

Say it and don't hesitate.

A good round No is the most effective of known shells from the human bowitzer.

In the great parliament of life the Noes have it.

The value of any yes you utter is measured by the number of Noes banked behind it.

Live your own life. Make your own resolutions. Mark out your own program. Aim at your own work. Determine your own conduct. And plant all around those an impregnable hedge of Noes, with the jaggedest, sharpest thorns that grow.

The No-man progresses under his own steam. He is not led about and pushed around by off-ficious tugsboats.

The woman who can say No carries the very best insurance against the fire, tornadoes, earthquakes and accidents that threaten womankind.

Be soft and gentle as you please outwardly, but let the center of your soul be a No, as hard as steel.

COTTON AFTER THE WAR.

One thing that has been demonstrated by the experience of the past year is that the world requires American cotton in times of war as in times of peace.

The Savannah Morning News. New uses for cotton are developing one after another and the new use once established, cotton seems at once to become indispensable for the purpose.

Cotton is now used in substitution for many commodities of apparently totally different characteristics from its own, and is found not only cheaper in cost but superior in efficiency.

Normal uses of cotton are naturally much interfered with by a great war. In some cases this becomes obligatory from the scarcity of the staple, together with the more compulsory requirements for war purposes. No one can calculate how long the people of any country or all countries could manage to get along with practically new additions to pre-existing stocks of manufactured cotton goods.

There are first the supplies already in the hands of final consumers, then the stocks in the hands of retailers, enormous in the aggregate; finally the larger individual stocks, held by wholesale dealers and manufacturers.

It is evident that the time through

It is the steam gauge of

It is the steam gauge of

Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its use is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher

In Use For Over 30 Years

The Kind You Have Always Bought

THE CENTAUR COMPANY, NEW YORK CITY.

which all these supplies can be forced to last is very elastic and can be much prolonged.

But the scarcity must become acute after awhile; then the need for fresh supplies will be all the more urgent from having been so long repressed. The end of the war will bring not merely the restoration of normal uses, but the call for replenishment of depleted stocks everywhere.

A surplus of cotton was carried over last year; it was an unwieldy surplus under ordinary conditions, the largest ever known in the history of the trade. But it was a moderate surplus in comparison with the great hoards made upon manufactured stocks.

This year the surplus is expected to be almost wiped out. The crop points to less than twelve million bales, probably three million less than the world will require even if the war continues.

Then to meet the increased call sure to come with a return of peace, the surplus will hardly be greater than what is usually carried from one season into another, with complete world stocks of goods.

There can be no assurance of a big crop next season. Increased planting alone does not mean a correspondingly increased yield. When will come the question of proper fertilizer, and besides, at prices now obtainable, farmers will not have the money requisite for planting a very much enlarged acreage.

And even with the proportionate acreage and adequate fertilizer, reasonable conditions may affect

the production by twenty, thirty or even forty per cent.

The unavoidable conclusion is that the end of the war, whether it comes sooner or later, will have a prodigious effect upon the price of cotton. He will be a lucky farmer who will have a goodly number of bales to sell when the opportunity comes.

What's become of the old fashioned decisive battles that used to rage over in Europe?

GASTRONOMIC MISTAKE.

"This condiment is so hot I can't eat it."

"Why, my wife said it was chilly sauce."

ITS KIND.

"When they rowed out to fish, Dick would talk so, Bill gave him a good slap in the boat."

"Ah! 'twas a fishing smack, then."

SOUNDED THAT WAY.

Patience—I like to see a man act and not talk.

Patience—Oh, you mean to say you like the nantomime actors best.

OFTEN CHANGES IT.

"Tom's a man claims that joy amplifies the face."

"I have known a joy ride to relate that theory."

Horses in the Civil War.

During the last years of our civil war the quartermaster-general's report shows that the consumption of horses and mules, on the northern side alone, amounted to £60 a day.

When you bought your automobile, you took time and much consideration before buying. You had to be convinced that you were buying something worth your money. Now should you not be equally as considerate about the quality of gasoline and motor oil you use? You wouldn't feed a five hundred dollar horse on damaged corn, oats or hay, neither should you use inferior fuel for your automobile.

We handle the TEXACO high grade Gasoline and Motor Oils. By using Texaco Gasoline and Motor Oil, you get more mileage, more power, and bring your carbon troubles down to a minimum.

Reliable as the Day is Long.

UGH! CALOMEL MAKES YOU SICK. DON'T STAY BILIOUS, CONSTIPATED

"Dodson's Liver Tonic" Will Clean Your Sluggish Liver Better Than Calomel and Can Not Salfire.

Calomel makes you sick; you lose a day's work. Calomel is quicksilver and it salivates; calomel injures your liver. If you are bilious; feel lazy, sluggish and all knocked out, if your bowels are constipated and your head aches or stomach is sour, just take a spoonful of harmless Dodson's Liver Tonic instead of using sickening, salivating calomel.

Dodson's Liver Tonic is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your head aches and dizziness gone, your stomach will be sweet and bowels regular. You will feel like working. You'll be cheerful, full of energy, vigor and ambition.

Your druggist or dealer sells you a 50 cent bottle of Dodson's Liver Tonic under my personal guarantee that it will clean your sluggish liver better than nasty calomel; it won't make you sick and you can eat anything you want without being salivated. Your druggist guarantees that each spoonful will start your liver, clean your bowels, and straighten you up by morning or you get your money back. Children gladly take Dodson's Liver Tonic because it is pleasant tasting and doesn't gripe or cramp or make them sick.

I am selling millions of bottles of Dodson's Liver Tonic to people who have found that this pleasant, vegetable, liver medicine takes the place of dangerous calomel. Buy one bottle on my sound, reliable guarantee. Ask your druggist about it.

Chalmers Six-40

20% More Power

The Chalmers valve-in-head motor with overhead camshaft is as far in advance of the old types of motors as the self-starter is ahead of the starting crank.

It is generally recognized in the trade and among owners as the 20% more power motor.

THE Chalmers Six-40 is the new motor car at a lower price, equipped with this wonderful new type of motor which has made it necessary for the Chalmers Company to so tremendously increase its production for 1916.

The Season's Motor Sensation

On the hills and country roads where going is hard, this \$1350 car will do all for you that a car did for A. E. Widen when he established a record at the recent Uniontown Hill Climb, driving a Chalmers Six-40, that was eight seconds better than the previous record for the class.

Within the limits of touring car service its wonderful valve-in-head overhead camshaft motor will give you all the efficiency and "trippin'-quick" getaway that this type gave Du Palma and Kosta when they averaged 90, 98 and 102 miles an hour for 300 and 500 miles at Indianapolis and Chicago.

Comfortable as a Rocking Chair

The new Chalmers Six-40 is as comfortable as a big library rocking-chair.

The leather upholstered seats are deep and luxurious; the sides of the cushions are built on the "armchair" principle. You ride in the car—not on it.

The leg-room is ample; the rear springs are 57 inches long—longer than any other car in the class—and the result is that the car glides over rough spots with an easy motion that makes motoring a pleasure under every condition.

Made in Chalmers Shops

Chalmers cars are made in Chalmers shops under the most exacting standards. They are quality cars throughout in style, beauty, comfort and performance.

See us to-day. We will give you a ride over the hills and country roads in this \$1350 car that will prove its 20% greater power.

Now Ready to Open

Every Chalmers dealer gives to every buyer of a Chalmers car a Chalmers Club card, each coupon being redeemable for a definite amount of supplies services at any Chalmers dealer's shop.

Chalmers Club and Chalmers

Every Chalmers owner is entitled to a membership card in the Chalmers Club commencing him to the courtesy of Chalmers representatives everywhere, and to receive "The Chalmers Clubman" regularly without charge.

"Let your Next Car be a Chalmers"

Letter From California

Chester Newton, a former Dothan boy, but a resident of California since last January, writes interestingly in a letter to a Dothan friend about California.

The Letter.

I see a great many things that would be of interest to you were you here and could be with me on some of the trips that I take, and that is practically every day. I have a Ford, that I think is the best one that old man Henry Ford ever turned out of his shop—it is certainly a crackerjack. I have driven it over 11,000 miles since the first of April. How is that? I have traveled over 22,000 miles since I left Dothan on the fourth of January—on train, steamer, sail boat, automobiles, Fords, horse and mule back and foot back—there is no telling how many miles I have walked.

You know this business called real estate is not the easiest thing in the world by any means. It is sure enough hard work. For instance, I am going to show a man over a cattle ranch tomorrow. It is located up in Merced county, about sixty miles north and east of the city of Fresno. This ranch is located in the northern part of the great San Joaquin (pronounced San Wau keln) Valley; there are 26,000 acres in it. Has 10,000 head of cattle on it, 17 flowing artesian wells, thousands of sheep and goats, turkeys, chickens, etc., etc. Can show a portion of this tract by automobile, partly on horse back, and the balance must be done on foot. Some walking too believe me.

I have enjoyed almost every moment of the time I have been in the great State of California. I have not been sick a minute—felt as fine as a fiddle and gained in weight until I weigh 196 pounds. How is that? I will soon be in the class with you, I guess.

These orchards, vineyards, and alfalfa ranches are the prettiest things I ever saw in the way of farms. The people are busy drying their peaches and grapes now—there are hundreds and hundreds and then some more acres of trays with the drying fruit on them—making raisins out of grapes. Say, you can believe me when I tell you that we have certainly enjoyed the fruit and are still enjoying it. We load up the Ford—4, 7, 8, or 9 people—and go out on grape swiping trips, and incidentally get peaches, cantaloupes, water melons, Turkish melons, and anything else that we find to eat.

We have been supposed to be keeping an apartment but I have been keeping batch most of the summer. Had wife under the care of a specialist down south. She spent most of her time at Long Beach, and it is with a great deal of pleasure that I can say that she has greatly improved. She has not gained much weight, but has a good healthy color in her cheeks and is gaining her strength back mighty fast. We went with a party up to the San Joaquin river last Sunday afternoon for a swim. She made what I think is a record swim for a kid—the distance was 350 yards. I swam right along by her side, but she made across alright.

We have made some mighty good friends since we hit this part of the world—some as fine people as I ever met in my life—and I tell you right now, if we hadn't fallen into the hands of friends I don't know what

would have become of us. I know this part of the country like a book. I have made three trips from here to Los Angeles by way of the Ford. The last one I made from Los Angeles here at night. Left Los Angeles late one afternoon and drove in here at midnight. The next morning—320 miles—crossed two mountain ranges and the Mojave (pronounced Moharvey) desert. Say now, you can take it from me, that mountain driving is something fierce. I came down the "short route" from Shaver (like the other day (Shaver Lake is back up in the Sierra Nevada Mountains, mile and a half above sea level). There is a hill known as the "Toll House Hill"—it is a drop of 1,100 feet in a distance of 2 1/2 miles. Had to tie a tree on behind the Ford to keep it from actually running away, the brakes would not hold it. How is that for a hill? Oh, no, now I am not after the minister's dog—for I can show you this hill any day you want to take a look or ride.

Dannely is getting along fine. He has gained 20 pounds since he came to me. Says California for him.

Wish you could see the way they do the work here in the Lodge—some folks believe me. They take the time to put it on RIGHT. It don't make any difference how much there is to do or how many there is to do. They do not confer any degrees on regular meeting nights, and then will only confer one degree on special nights. In this way they have plenty of time to do the thing up right. I have not had any trouble getting in any where I wanted to visit since I left home.

We have passed the hard times talk—people are talking good times, and, in fact things have loosened up considerably, business is good in all lines. The packers are shipping 100 cars a day of fruit—that's some business, you know. Several large deals were made here last week.

Of course there is not the same hospitality shown here that there is in the South, but the people out here DO THINGS. Everybody works out here, including "Father," and "Sister Sue." It takes 22 different languages to transact business in this little city—I have a hard time sometimes getting business closed up with that bunch of "FERRINERS."

Well, so long, drop me a line when you have time, always glad to hear from you. Give the folks my best regards.

Truly yours,
C. W. NEWTON.

Mrs. Louis Ussey Entertains

Mrs. Louis Ussey delightedly entertained a number of young people at her home on E Washington street Tuesday evening.

The invited guests were Misses Inez Barnes, Johnnie Dozier, Bernice Dozier, Belle Barnes and Ruby Helms, Messrs Brown, Barnes, Mcleland, Fischer and Senn.

As the young people had their hostess good night each declared they had had a most delightful time and hoped they would have the pleasure of visiting her again.

Bob Murphy, of Cottonwood route 2, was here today on business.

TURNING TO OLD REMEDIES

Popular Demand Nowadays to More and More for the Herbs Used by Our Grandmothers.

Diet, pure food, pure air and less worry constitute the favorite prescription of doctors in this progressive day, says Leslie's. And we are having a revival of the old-fashioned remedies of our mothers and grandmothers who depended upon nature's herbs for most of their medicines. Never before has there been such a demand for pennyroyal, peppermint, wintergreen, gold thread and other simple remedies of the old days, and all of these enter into numerous popular medicaments. Now comes the discovery that by a careful refining of crude oil, a tasteless, colorless product can be evolved that will act as an internal lubricant for the human system. This was a Russian medical discovery and the oil received the name of "Russian oil." It was obtaining worldwide fame when the war broke out and interfered with our foreign trade. American ingenuity met the demands of the emergency and replaced Russian oil with a product from the laboratories of our own chemists. So with nature's herbs and the products of nature's distillation, Providence administers its healing remedies to suffering mankind and leaves less for the doctors to do.

BACK TO FLINT AND TINDER

Soldiers in the Trenches in Europe Use Ancient Methods for Producing Necessary Fire.

There are many ways in which old and almost forgotten methods of warfare have been adapted to modern use in the trenches, the hand grenade, the catapult, and even armor having been found efficacious in many instances.

Soldiers in the trenches, who have the very newest inventions in their equipment, are very glad to go back to the old flint and tinder boxes, because they can't use the matches, for they suffer so much from the damp in the trenches that they are soon rendered useless. To meet this difficulty the old flint and tinder boxes are being supplied to the soldiers and the sailors. Another good thing about the tinder fire is that it does not blow out in the wind as a match does, and does not show a flame to attract the enemy's attention.

A specially planned tinder box is being prepared for use in the British army and navy. It is small and compact, only half an inch deep, and contains a 7 1/2-inch fuse, or length of prepared tinder, a shaped section of flint, and a hard steel. Inside the lid of the box are printed instructions for getting a light.

DEMAND FOR MARMALADE.

So great is the demand for marmalade in England that Spanish shippers are still sending bitter oranges, which have just arrived on the English market. It is, of course, abnormally late for the fruit, and the oranges are not good, either in quality or condition. Nevertheless, the market price stands at 13c to 14c (\$3.16 to \$3.41) a half chest, which contains about eighty pounds of sound fruit (4 to 1 1/2 cents per pound). This works out at fully three times the ordinary value, and there is keen competition amongst jam makers for late arrivals of bitter oranges.

DIFFERENCE OF OPINION.

"I can't help but admire young Podaley," said Mr. Gadsper.

"Why, he's the father of a fine boy, yet he never bores anybody with stories of the child's remarkable cleverness. Don't you think he's a sensible fellow?"

"No," snapped Mrs. Gadsper. "I think he's an unnatural brute!"

As the young people had their hostess good night each declared they had had a most delightful time and hoped they would have the pleasure of visiting her again.

Bob Murphy, of Cottonwood route 2, was here today on business.

E. S. Lasceter, of route 6, was here today trading.

Hundreds of new things come here every day and let us show them to you.

Saxon-Heard
Dry Goods Company

The Squarest Service Deal for You and Your Hupmobile

In the Saturday Evening Post of August 7, the Hupp Motor Car Company announces its new national system of free service-to-the-owner.

This service is given without cost to every owner of a 1916 Hupmobile. A book of coupons, good for 50 hours of labor, goes with each 1916 model.

The coupons are exchangeable for labor at any Hupmobile service station in the United States or Canada.

We want to emphasize the national announcement by calling particular attention to the local Hupmobile service station.

We believe the new plan to be the best yet devised, the simplest, most practical, and most complete.

It guarantees your Hupmobile being kept in perfect running condition.

The service is yours, free, from the time you buy a car—anywhere you want it.

The 1916 Hupmobile—worth \$260 more but \$115 lower in price than last year's model—is a remarkable automobile value—the best the Hupp Company has ever built.

With the service feature added, there can be no doubt that the 1916 model is the most exceptional value in the world.

Our merit test of the 1916 Hupmobile has convinced scores that there is no need for more cylinders, no need to pay more than the Hupmobile price. This service plan proves that no car at any price can give greater satisfaction.

We stake our reputation on these facts. Let us prove them to you.

You cannot afford to buy any car until you have learned the details of the first real national plan that wipes out motor car troubles.

We shall be glad to give you the particulars if you will call and show you the beautiful new Hupmobile.

1916 Hupmobile Prices

1. Passenger Touring Car, \$1050
2. Passenger Sedan, \$1200
3. Passenger 4-Door Sedan, \$1350
4. Passenger 4-Door Sedan, \$1500

1. Passenger Limousine, \$2000
2. Passenger Sedan, \$1200
3. Passenger 4-Door Sedan, \$1350
4. Passenger 4-Door Sedan, \$1500

BOY TO SEE LOVED SHIPS

Boy of Marine Class to Undergo
Little Lad a Most Thoughtful Act

Little Jimmie Smith, who always smiles, though he's an incurable in the Kings County hospital, Brooklyn, is to have his one big desire—to make out the ships that pass in and out of New York bay—satisfied. The gift is a marine glass, and next Sunday, if it is fair weather, from the roof of the hospital Jimmie will sweep the bay like a seafaring man and tell the other patients all about the ships.

Jimmie is fourteen and has tuberculosis of the spine. He has been a hospital patient for nearly six years, and his chief joy is a view of the bay from the hospital room. If Jimmie had not been stricken he would have been a sailor-man, for he loves to talk of the sails and the mysteries of the seas. In his fancy he pictures the far travels of the ships.

It was through the thoughtfulness of Mrs. Eva L. Fluttorer of 186 Peshine avenue, Newark, that Jimmie received the marine glass. Mrs. Fluttorer was introduced to him by Miss Mabel L. Smith of 50 Hubbard place, Brooklyn, who first met him two years ago in the Methodist Episcopal hospital.

One day recently Miss Smith happened to speak of her little friend while visiting Mrs. Fluttorer, and the latter expressed a desire to visit him. When they met in the Brooklyn hospital recently the first thing Jimmie spoke about was the ships.

SORRY HE SPOKE

"Sir, I should like to work on half time during summer."
"Keep right on, my boy; you are working only half the time now."

OBSERVE COURTESY IN WAR.

A strange courtesy of war which attends the fraternity of airmen, regardless of the fact that they are divided into hostile camps, was reported by English army aviators on leave of absence in London.

If a British birdman kills a German aviator he makes a second flight over the enemy's lines, drops a note expressing regret that the demands of war made his action necessary and asks that his sympathy be carried to the dead aviator's family.

A young English aviator started the practice several weeks ago. The Germans promptly reciprocated.

A QUESTION.

"What's on at the town hall tonight?"

"Professor Whango is going to lecture on our army and navy."

"As to how they kick the world or on their lamentable shortcomings?"

THAT ACCOUNTS FOR IT.

Bacon—I see Crimmonbeak has moved from Philadelphia to Brooklyn.

Egbert—I thought as much. See by the paper the output of liquor in Pennsylvania has decreased 33 1-3 per cent during the last year.

A MOVING SPIRIT.

"Do you think that the old Liberty Bell of Philadelphia still exerts an influence over our citizenship?"

"Beyond question. Every time a town gives an exposition it is expected to be the life of the party."

THE OBVIOUS REMEDY.

"There is only one thing which will effectively break up a deadlock."

"What is that?"
"A law to the situation."

MOTHER LOVE HIGHEST TYPE

Unselfishness Seldom Given Proper Appreciation Until It Is Too Late to Express It.

The rarest of all the virtues is unselfishness. To disregard self so completely that all one's interest is wrapped in another is an outward and evident sign of a big nature. There is only one class of humanity in which such unselfishness is to be found in abundance, and that is in mothers. To be sure, there are a few other unselfish souls to be found scattered here and there in a world of selfishness, but, generally speaking, unselfishness is to be found at its highest in mothers. That there are exceptional mothers who are intensely selfish only goes to prove the rule.

If only children could appreciate to the full the greatness of the mother love! Unfortunately, most of us learn too late to appreciate the magnitude of our mother's affection. It is the contrariness of fate that we never value anything half so much as when we have lost it. And, as a rule, we take our mother's sympathy and help so much as a matter of course that it is not until she has gone that we would give anything to have expressed our love and gratitude for her many sacrifices for us.—New York Telegraph.

CLEANSES AND HEALS WOUND

New Bullet Will Disable Soldier, While Giving Him Chance to Make Ultimate Recovery.

A new bullet which is intended to inflict damage in the usual way, but which at the same time carries with it the means to cleanse and heal the wound it makes, has been invented by an American, Alexander F. Humphrey.

In construction the Humphrey bullet looks exactly like any other at first glance, but a closer inspection will reveal two angular grooves pressed into its nickel jacket. The grooves are where the first-aid drugs are stored. The one nearest the tip is for the narcotics and the other for the antiseptic.

The drugs are incased in layers of gelatin, and when the grooves are filled a thin coating of paraffin is spread over the top. This paraffin coating is melted by the friction of the bullet in the rifling of the projecting weapon and in its flight through the air, so that the drugs are ready to begin their work of healing as soon as the missile finds its mark. The anesthetic is absorbed by the system almost instantly, and in a very short time produces nearly complete insensibility to pain. At the same time the antiseptic is checking the hemorrhage and uniting with the blood to soothe and heal the torn flesh.

COMES TO HER OWN FUNERAL.

When Mrs. Eva Cunningham reached the home of her father, Walter J. Sanderson, with whom she lives, at New Brunswick, she was surprised to see flowers and a gathering of weeping friends.

"Why, we thought that you were dead!" said the friends when they saw her. "We saw a notice that you had died in Spring Lake."

"Well, do I look like a dead one?" retorted the supposed corpse.

The announcement appeared in a local paper and also an Ashbury Park paper, and was printed in good faith.

TRUE BRAVERY.

"Now, remember," said the sergeant to the recruit. "You are on sentry duty. If anybody comes along, be sure to challenge him."

"Faith I will," answered the recruit. "An' devil a bit will I care whether he's in me class or not."

SURE ENOUGH.

Bill—I see a detachable extension tube has been invented to lessen the noise of water falling from faucets into a bath tub.

Jill—But what's the use of it? How is anybody to tell you're taken a bath?

NO DOUBT.

"Was the dog mad that bit the children who were teasing him?"

"I think the animal was somewhat." "Certainly. Try avianism stock."

CUTS PROFITS OF EMPLOYER

Practice of "Sabotage" as Employed by Dissatisfied Workmen, Said to Have Begun in England.

Sabotage, a method of "direct action" advocated by syndicalists and by the Industrial Workers of the World in this country, means, briefly, doing one's work with intentional incompetency. Although the word is of French origin, and the system owes its adoption as an organized method to the action of French laborers, sabotage is said to have been first practiced by English workmen, who called it "Ca'anny," a Scotch phrase meaning "Go slow." It has been described as "striking without leaving the pay roll;" the workman who practices sabotage simply turns out bad-work, continues to annoy his employer and decrease the value of his employer's output, without actually "going on strike." There are many different kinds of sabotage, from the "open-mouth strike," in which the employee takes pains to inform the public of any adulteration, weakness or dishonesty in his employer's methods, to the actual wrecking of the machinery, which may result in injury and loss of life; of course there are ways of being careless in every industry. Several suggestions have been made as to the origin of the word, which is obviously derived from the French "sabot," but it probably means to go clumsily "as one wearing wooden shoes." The accent is slightly on the first and last syllables, but is nearly even: The first "a" is pronounced as in "at," "o" as in "go," and the second "a" is broad; "g" has the soft French sound of "j." It is interesting to note that the socialist party has gone on record as opposed to sabotage, along with other forms of violence.

YALE IS "Y'S"

She—The regatta was great Yale's captain yelled "win," and they did.

He—A word to the "Y's" is sufficient.

"COON" ADOPTED KITTENS.

A large raccoon, mistaking an open door at the home of William Clayton of Murphy, N. C., for an invitation to walk in and make himself at home, went on an exploring expedition and found a basket of kittens which it adopted, after chasing the mother cat away.

When Clayton returned home he hunted for the kittens, and in feeling under the bed he felt a sharp, stinging sensation. Investigation revealed the raccoon, with the strange brood at its side. Clayton declares the animal can stay as long as it behaves and exerts no evil influence over the kittens.

RARE EXPERIENCE.

"I would like to pay a bill," said the caller.

The doctor looked at him curiously for a moment. "Are you quite sure about that?" he asked.

"Why, of course. Here's the money."

"Thanks. I'll write a receipt for you. Pardon my question. You are the first person who ever told me that he would like to pay a bill."

CARRYING IT OUT.

"Chinamen are as alike as two peas."

"Even to having the same queues."

SURE TIP.

"I have some money to invest and I'd like to take a little flyer. Can you give me a good tip?"

"Certainly. Try aviation stock."

"Serve the Public"

Society

Mrs. Eric Cellerstedt, Editor Phone 644

THE SOCIETY EDITOR

The Society Editor sat at her desk, As tired and hot as could be; The phone kept ringing for "the Society Ed." To write up a luncheon or tea.

There were moonlight rides on launches fine; And auto rides galore; She wrote and wrote till the very thought Of rides became a bore.

She wrote of parties to Pans-a-Gille, And Anna Marie Key; She thought how fine the bathing was, And whispered, "If that only could be me."

There were clubs named this, and clubs named that, And church societies a score; And if she mixed them the least, least bit, She was forgiven nevermore.

There were weddings and parties and bridge, With "refreshments served" each time; She wrote and wrote until her fingers ached, And her mouth "watered" at every line.

She thought of the "decorations fine," And longed for a single flower; But those who had asked her to "write them up" Forget her before the next hour.

We must have a society page; It is very essential you see; Without it the paper would not be read By a proper society.

—Neta Flegle.

Card of Appreciation—

Mr. and Mrs. Leslie Wade Lathram wish to thank their many friends for their help and sympathy shown them during the long illness and death of their daughter, Evelyn Elizabeth, and to assure them that they will always remember their kindness.

Mrs. Lathram returned to her home in Laverne this morning, accompanied by Mr. and Mrs. Wade Lathram who will be her guests for several days.

Miss Leola Faulk left this morning for Starke, Fla., where she will spend the winter.

Miss Marion Alford of Tallahassee, Fla., in visiting Miss Clara Brown.

Daddy Long Legs Author Weds—

A special from New York says the marriage of Miss Jean Webster, author of "Daddy Long Legs," and Glenn Ford McKinney, lawyer, took place Tuesday at Washington Green, Conn.

Miss Alford to Be Honored in Party—

Miss Clara Brown will entertain at Progressive Conversation party this evening in honor of her guest, Miss Marion Alford.

Old Dances to Return—

The old fashioned dance is coming back into its own, according to members of the Philadelphia Dancing Masters' Association. The tutors of smart dancers are soon to hold their semi-monthly conference in Atlantic City. It is probable the association will go on record in revising dance styles for the winter.

The change is for the benefit

COAL

Give us your orders now.

ED STORAGE

to take care of the farmers in our cold storage.

MOORE ICE COMPANY

PHONE 102

of the beginner. No more will would-be dancers have to become students of gymnastics in order to dance the latest dances. The old fashioned but popular two-step and waltz, for several seasons wallflowers of terpsichorean art, are coming back if the dancing masters succeed in overruling devotees of the "canterwalk," "hesitation," "maxixe" and others.

Preliminary bulletins of the association on the revision show that the standard dance of the winter will be a combination of the one-step and the two-step with a few frills added to the waltz. The "hesitation" will be encouraged if the pupil is apt, but banned if clumsy.

The dancing masters have been holding their meetings at seashore resorts this summer in order to learn first hand the favorites of the dancing public.—Philadelphia Ledger.

POPE A VOLUNTARY PRISONER

Custom Alone Prohibits the Head of the Church From Leaving the Vatican Grounds.

The custom of the pope never leaving the Vatican originated in 1870, when the temporal dominion of the pope came to an end and the former States of the Church were incorporated in the new kingdom of Italy. There is no law against his leaving his palace or its grounds, nor would he be arrested for such procedure. The pope's remaining in the Vatican is voluntary. One of the first acts of the kingdom of Italy after its union of the whole of the peninsula was to pass the law of guarantees, in force May 13, 1871, declaring the pope's residence extraterritorial and immune from Italian law. All action of the authorities of the kingdom of Italy stops at the gate of the Vatican. At the time of Victor Emmanuel's occupation of Rome Pius IX declared himself opposed to the kingdom's temporal sovereignty and originated the custom of the pope's remaining in that part of the city where he is still absolute ruler. When the pope goes to St. Peter's it is regarded as a part of the Vatican for the time. It is interesting to note in this connection that the Vatican was not originally intended as a place of residence. Comparatively a small part of it is now residential; the remainder serves the purposes of science, art and the administration of the Catholic church. Of the 1,000 rooms in the great palace, 200 serve as residences for the pope, secretary of state and the other high officials of the church.

SLIGHT ENCOURAGEMENT

He—If I were to ask you to marry me, what would you say?
She—I don't know; but I'd be too polite to say what I thought.

Cabbage (October to December), Chives (Sets), Garden Cress, Kale (Green and Plain), Lettuce, Mustard, Onion (Sets).

Sow or Plant in November. Spinach (September to November), Cauliflower, Broccoli, Spring Flowering Bulbs.

For detailed instructions, consult Southern Garden Manuals, and catalogues of the Southern Gardening Co.

Malaria or Chills & Fever

Prescription No. 685 is prepared especially for MALARIA or CHILLS & FEVER. Five or six doses will break any case, and if taken when a chill or fever is on, and if taken on the first day, the fever will not return. It acts on the liver, breaks the colored and does not grip or sicken. 25c

Report of County Commissioners

Commissioners court met in Regular Tax Term Session, July 12, 1915.

There were present: A. C. Crawford, chairman; J. H. Blackmon, J. A. Bateman, W. J. Parish and Reuben Wilson.

The following affidavit was subscribed to by the Board of County Commissioners after being duly sworn:

State of Alabama, Houston County.

Before me, A. C. Crawford, Probate in and for said county personally appeared J. A. Bateman, J. H. Blackmon, W. J. Parish and Reuben Wilson members of the board of County Commissioners of Houston County, who on oath declares and say that while engaged in the duty of correcting errors in assessments or passing on the assessment of escaped taxes we will fix a value on all property assessed for taxes at its fair market value, and that we will in no case where the facts are brought to our knowledge reduce the value of any property for taxation below the fair market value of the property or what the property would sell for cash and that we will make delinquent effort and in inquiry to ascertain the value of all property to be passed on by them.

Signed: J. A. Bateman, J. H. Blackmon, W. J. Parish, Reuben Wilson.

Sworn to and subscribed before me the 12th day of July, 1915. A. C. Crawford, probate judge.

The court proceeded to examine the cases heretofore cited and passed on each case after hearing the testimony, as shown by Tax Commissioners Court be adjourned to convene on July 20th, 1915.

August 9th, 1915.

Commissioners Court met in regular session on this the 9th day of August, 1915, and there was present A. C. Crawford, chairman, W. J. Parish, J. H. Blackmon, J. A. Bateman, Reuben Wilson.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know.

The use of Sage and Sulphur for removing faded, gray hair to its natural color dates back to grandmother's time. She used to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out of date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well known down-town druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this thru your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and abundant.

H. T. Abernathy of route 6, was a Dothan caller today.
